PROFILE

Tech CSE (Data Science) student with a strong interest in C programming and software development. Possess a good understanding of C fundamentals, including data structures, pointers, arrays, functions, file handling, and memory management. Familiar with problem-solving, debugging, and developing efficient programs using C. Eager to gain practical experience through real-world projects and further enhance programming and software development skills.

EDUCATION

B.Tech – Computer Science and Engineering (Data Science) **CGPA: 9.10**

Ballari Institute of Technology and Management

Pre-University Course (PUC) **86.17%**

JT PU College

Class X – CBSE **95.84%**

JT School

TECHNICAL SKILLS

Programming: C, Python (Basics), Java (Basics)

C Programming: Pointers, Arrays, Strings, Functions, Structures, File Handling, Dynamic Memory Allocation

Data Science: Machine Learning (Beginner)

Core Skills: Data Structures (Basics), Problem Solving, Debugging

Soft Skills: Team Collaboration, Communication

PROJECTS

Cinema Seat Booking System using C

- Developed a console-based cinema seat booking system using C.
- Implemented seat selection, booking, availability checking, and booking management functionalities.
- Applied arrays, functions, conditional statements, loops, and structured programming concepts.

Resume Analyzer using Python

- Developed a Python-based resume analyzer to extract and analyze relevant information from resumes.
- Applied basic Python programming and text-processing concepts.
- Designed the project to help identify important resume information and improve resume analysis.

CERTIFICATIONS

- AI Generative via IBM
- Data Analytics Job Simulation via Deloitte
